WHISTLER GRILLS

BRIDGING THE GAP BETWEEN OUTDOOR DINING AND ENTERTAINMENT.

ABOUT WHISTLER GRILLS

Whistler Grills offer a luxurious range of freestanding gas barbecues, integrated built-in grills and units, outdoor modular kitchens and a variety of accessories to match. Priding ourselves on being premium yet affordable, we never let price compromise quality. Manufactured from high grade materials such as 304 stainless steel, and quality control assured throughout every step, you can be rest assured that our products are designed to impress, and are built to last. With this in mind, Whistler confidently offer limited lifetime warranties on many of our products!

FREESTANDING RANGE

The Bibury range is the most impressive of the Whistler portfolio. Manufactured from 304 stainless steel throughout, these sophisticated grills are premium in every aspect, with quality being key in the design process. Whilst the Bibury range competes with the very best in the market, Whistler go above and beyond by including a rotisserie and cover within the already competitive price. With the Bibury's impressive LED light control panel, you can party the night away without having to worry about light restrictions!

Three sizes available: 3, 4 and 5 burners

WHISTLER **BIBURY 3**

Although the smallest of the range, there is no compromise in quality or performance. Perfect for a family or couple looking for a high performance BBQ.

WHISTLER GRILLS

Burford

BUILT-IN RANGE

The built-in range comprises of three premium BBQ heads, complemented by a variety of built-in drawers, doors, bins and side burners to match. When planning and designing an outdoor kitchen, quality is key and Whistler know it! This range is manufactured from 304 stainless steel throughout, demonstrating our products are built to last - a very important factor when it comes to outdoor kitchens. Whistler's built-in range really is the total bespoke kitchen package!

THE CENTREPIECE – BURFORD BUILT-IN HEADS

The Burford built-in BBQ's are offered in three different sizes to suit all outdoor spaces, and are premium in every aspect. Built from low maintenance 304 stainless steel throughout, these heads will form the centrepiece of your bespoke outdoor kitchen for years to come. We are so confident in the build quality of this range that we offer a limited lifetime warranty on all three models. A top of the range yet affordable solution to bespoke kitchens.

Width: 564.5 Weight: N.W 23.50 KG

Whistler offer a single door gas bottle cabinet, designed to store and hide up to a 13KG gas bottle with a supporting slide-in shelf within. With adjustable levelling castors, this unit can be adjusted to match the height of the other units. It is also possible to store up to a 13KG gas bottle within the 90 degree corner unit.

If you're looking for a flexible approach when designing your outdoor kitchen, the 45 and 90 degree corner units offer the ultimate versatility, allowing you to create your kitchen based around the shape of your outdoor space.

Once you have decided on your configuration, you can simply attach the units together with butterfly screws, which can be reversed if you decide to change the layout. All that's left to do is fire up the barbecue and enjoy your new outdoor entertaining space!

EXCLUSIVE **FEATURES****LEVELLING CASTORS**

We offer adjustable levelling castors for all modular units, enabling you to adjust the height of each unit according to your patio or flooring, giving you a level and professional finish.

304 COOKING GRATES

Whistler cooking grates are manufactured from 304 stainless steel. The reason this high-grade material is used in many of our products is due to its resistance to oxidation and corrosion. The chromium protects the product from oxidation and rust, and the higher the nickel content, the more resistant stainless steel is to corrosion. These can be bought as an accessory if the customer would like to swap out the cast-iron griddle plate with another grate.

WORK SURFACES

Whistler has introduced a brand new Laminam counter top material to this range. This high-quality, robust material has been used for the following reasons:

- Highly scratch and abrasion resistant
- High strength
- Heat and wear resistant.
- Chemical resistant
- UV resistant
- Hygienic surface
- Easy clean.

PRE-BUILT KITCHENS

Alternatively, choose from the range of pre-built kitchens we have designed below. Please note, these kitchens come with the option of the Cirencester 4 or 6 BBQ as the centrepiece.

Whistler Grills Limited

WhistlerGrillsLtd_

WhistlergrillsLtd_

Whistler is committed to providing a range of useful, high-quality accessories to compliment your outdoor kitchen and cooking experience. We offer the following products:

COVERS

We offer premium heavy weight covers for all BBQ ranges, to provide protection from harsh weather as well as keeping them safe, clean and in pristine condition throughout the year.

SUITABLE FOR: All BBQ's, with the exception of modular kitchen units.

CERAMIC BRIQUETTES

Designed to offer you the benefits of both gas and charcoal cooking, ceramic briquettes distribute heat evenly throughout your grill and are great at retaining heat, reducing the amount of energy it takes to keep your BBQ hot. With many beneficial features such as being long lasting and self-cleaning, as well as a great food flavouring tool, ceramic briquettes are the very best solution to heat disbursement and retention.

Material: Stainless Steel 304

Per Tray: 16 briquettes

SUITABLE FOR: Whistler Bibury, Burford and Cirencester models.

ROTISSERIES

Rotisseries offer the advantages of direct roasting meat. It allows the excess fat and grease to drain off during the rotation process.

SUITABLE FOR: All BBQ models.

WHISKY SMOKING CHIPS

Complementing the Whistler Smoker Box, add our Whisky Chips to create an amazing whisky smoky flavour to your food! Made from authentic scotch whisky barrels. 400g.

SUITABLE FOR: Whistler Bibury/Burford Smoker Box.

SMOKER BOX

The Whistler Grills Smoker Box allows you to add delicious smoky flavours to food, that you cannot get through any other means. The Smoker Box sits alongside the cooking grates and can be filled with flavoursome wood chips to bring you delightful aromas and tastes.

SUITABLE FOR: Whistler Bibury and Burford models, can also sit within the Cirencester models above grates.

SEAR BURNER

The Sear Burner replaces the cast stainless steel burner on your Whistler BBQ. It is ideal for searing food such as steaks, and vegetables as the infrared burner retains moisture and juices, creating very flavoursome food.

SUITABLE FOR: Whistler Bibury/Burford ranges.

GRIDDLE PLATES

Made from 304 stainless steel, these flat griddle plates replace the grates to create a versatile flat cooking surface.

SUITABLE FOR: Whistler Bibury, Burford and Cirencester models.

GRIDDLE GRATES

Made from 304 stainless steel, these griddle grates replace the complimentary griddle plate to create a full grate cooking surface.

SUITABLE FOR: Whistler Bibury, Burford models.

HEAT DIVIDERS

Designed to divide the heat chambers between burners. The divider maximises the heat from each individual burner, allowing you to cook effectively above each individual burner.

SUITABLE FOR: Whistler Bibury and Burford models. Already comes with Bibury and Burford 5

CLEANING PRODUCTS

The ultimate set of cleaning products to protect, shine and ensure durability for your BBQ.

SUITABLE FOR: All Whistler products.

WHISTLER GRILLS STAINLESS STEEL 3IN1

Has been specially developed to clean, shine and protect stainless steel surfaces in just one easy step, leaving a streak-free coated shine. This product effortlessly removes all dirt such as oil, grease, fingerprints etc, making the surface look like new again whilst adding a layer of protection. The 3in1 works in line with the power cleaner spray, acting as a conditioner.

WHISTLER GRILLS STAINLESS STEEL POWER CLEANER

Safely dissolves fats, proteins and starches quickly and effectively. This product is also suitable for all other water-resistant surfaces such as enamelled surfaces, glass, ceramic, granite, marble and plastic.

WHISTLER GRILLS STAINLESS STEEL POLISH

Removes surface corrosion and oxidation to restore brilliant high gloss, premium shine and lustre. A fast and easy to use cleaning step, whilst also being food-safe. The polish creates a layer of protection to your stainless steel product.

USEFUL INFORMATION

Product care

Although Whistler products are designed to last, using some of the highest grades of stainless steel, they still have to be well looked after and protected. Similar to a car, if you keep them clean and well maintained they will be trouble free for many years, leave them exposed to harsh elements and unprotected, they will deteriorate.

Covers

With this in mind, we have developed premium covers for every grill we produce, as well as having launched a range of superb cleaning products to help provide your Whistler product with the protection it deserves! These can be found within the Whistler Accessory Range.

Cleaning products

Whistler Grills Stainless Steel 3in1
Whistler Grills Stainless Steel BBQ Polish
Whistler Grills Power Cleaner

- The ultimate set of cleaning products to enhance shine and ensure durability
- Cleans, shines and protects your Whistler products
- Easy to apply
- Food safe cleaning (NSF certified)
- Streak-free formula
- Powerfully removes oil & grease

Aftercare Service

Service Engineers

Whistler Grills have engineers covering the whole of Mainland UK. These engineers can carry out services or repair/replace damaged products/parts that are covered by warranty.

Customer Support

Whistler Grills have a very proactive customer support team who work in conjunction with retailers, to ensure we continue to offer the best customer service within the industry. Any queries regarding your Whistler product should be discussed with your retailer in the first instance, who will then liaise with Whistler's customer support team if required.

If you wish to find out more please head to our website www.whistlergrills.com

MEATER®

The First Wireless Smart
Meat Thermometer

MEATER®

HAVE YOU EVER WONDERED HOW LONG SOMETHING TAKES TO COOK?

We all have. Let's be honest. But what if we have been asking the wrong question all along? The best results come when you cook to temperature. For instance, chicken is cooked at 74°C although if you follow packet instructions it can sometimes cook for a further 20 minutes after it hits the ideal internal temperature, which won't shock you to learn, leaves you with some very dry chicken!

So what is the best way to know when something is ready? Put quite simply – you need to add a meat thermometer to your kit list. Not only will this give you the confidence and knowledge to serve your guests perfect food every time, it will also allow you to check up on your cook without lifting the lid of your BBQ – if you're looking, it's not cooking! A solid recommendation is the market leading MEATER Plus. A premium wireless meat thermometer that uses Bluetooth to connect to an industry changing phone application to give you full control over your cook. With more meat options than you can ever think of (from chicken and beef right up to Ostrich or Buffalo) you will never have to play 'is it done' roulette ever again.

The MEATER Plus gives you 50M of wireless range allowing you to not have to baby sit the cook and enable you to look after the important things in life (or make your side dishes) while your meat does its thing under the lid of your Whistler grill.
